

MASTERLINE 8 WINDOWS

MasterLine 8 is a high-performance aluminum window system designed for a wide range of residential and architectural applications.

It combines thermal efficiency, reliable weather performance, and design versatility in a system that supports multiple opening types and configurations. Developed to perform under demanding climate conditions, it offers a balanced solution for projects that require both technical performance and architectural flexibility.

MasterLine 8 provides clean, refined design options across different project requirements.

- MADE IN CANADA
- HIGH PERFORMANCE ALUMINUM SYSTEMS FROM REYNAERS
- SOBINCO ACCESORIES

PERFORMANCE HIGHLIGHTS

- **High-Performance Insulation:** Engineered to achieve thermal performance values as low as $U_w = 0.22 \text{ Btu/hr}\cdot\text{ft}^2\cdot^\circ\text{F}$ (double glazing) and $0.15 \text{ Btu/hr}\cdot\text{ft}^2\cdot^\circ\text{F}$ (triple glazing), depending on glazing and system configuration.
- **Robust Weather Resistance:** Tested to Extreme 4 / E900 / C5 classifications for air permeability, water tightness, and wind load resistance
- **Design versatility:** Available in Functional, Deco, Hidden Vent, and Renaissance styles
- **Large-format capability:** Supports vent heights up to 2800 mm and weights up to 200 kg, enabling expansive glazing applications
- **Acoustic performance:** Up to $R_w 46 \text{ dB}$ for improved interior comfort
