

# SLIDING DOORS SLINOVA

The REHAU SLINOVA sliding door system combines slimline design, expansive glass surfaces, and smooth operation to create bright, contemporary living spaces. Its narrow profiles maximize natural light and outdoor views, providing a seamless connection between indoor and outdoor environments.

Designed for versatility, SLINOVA offers multiple sliding configurations, including two-, three-, four-, and six-panel options with dual- and triple-track systems. Its space-efficient design allows for flexible openings, while durable construction and reinforced profiles provide structural stability and reliable everyday performance.

Engineered for comfort, security, and long-term durability, the system features multipoint locking technology, effective weather sealing, and low-maintenance surfaces. Its combination of minimalist aesthetics, practical functionality, and design flexibility makes it an ideal solution for modern residential projects.

- MADE IN EUROPE
- HIGH PERFORMANCE VINYL SYSTEMS FROM REHAU
- ROTO HARDWARE

## PERFORMANCE HIGHLIGHTS
